Ofsted has launched 'Parent View', a new online questionnaire that will allow parents and carers to give their views on their child's school at any time of the year.

Covering over 22,000 schools across England, the 12-question survey will help other parents as they make important choices about their child's education and provide Ofsted with information about schools that will help inform priorities for inspection.

The questions were carefully chosen to cover those issues that parents told Ofsted are the most important to them.

They are also designed to provide Ofsted with the information to support decisions about inspection and will give headteachers a direct route into gathering the views of their parent group.

The questionnaire is accessible at :

www.parentview.ofsted.gov.uk

Please take the time to visit the site and complete the questionnaire.
